

# BUILD ENTERPRISE APPS AT THE SPEED OF THOUGHT

Embrace the Power of Low-Code Application  
Development

## DEFY THE DEFINED WITH **10X** FASTER DEVELOPMENT

The iLeap Low-Code Application Development Platform empowers organizations to rapidly build world-class, enterprise-scale applications on the cloud. Harness the potential of true agility that delivers business value and unmatched digital transformation.

### CORE CAPABILITIES

BUILD ALL TYPES OF  
BUSINESS APPS

AUTOMATE  
BUSINESS WORKFLOWS

CHANGE ANYTIME,  
AS MANY TIMES

ENFORCE  
BUSINESS RULES

ONE CLICK  
DEPLOYMENT

SEAMLESS ENTERPRISE  
DATA MANAGEMENT

# DELIVER PHENOMENAL EXPERIENCES

## ADOPT THE NEW. SCALE WITH THE OLD.

Build modern apps without having to worry about legacy systems, green screen machines and outdated applications. Get a head start into applications that are backed by the latest tech trends such as AI, ML, NLP and more. Business apps built on iLeap can be tailored to integrate both legacy and modern technologies to deliver exceptional experiences.

## POWER UP DECISION MAKING

Derive structured business insights from illustrated charts and visual data that can be accessed via custom business dashboards. Unlock hidden trends in business operations and track KPIs with ease. Unleash the power of Business Analytics and leverage data to drive core departmental performance. Take the power of analytics right down to the level of internal communications, processes and data to give your business an added competitive advantage.

## EVERY KIND OF BUSINESS APP. ONE DEVELOPMENT PLATFORM.

Build apps that span the widths of B2B, B2C and B2E use cases. Revolutionize employee and customer experiences while driving significant momentum with internal operations.
